

Job Title:	Clinical Scientist
REF:	273-DC-3508
Hours p/w:	37.5 hours per week
Department:	Electrophysiology Department
Salary:	£38,035 - £48,256 per annum incl. HCAS

The Visual Electrophysiology department at Moorfields Eye Hospital wish to recruit a suitably qualified and experienced Clinical Scientist who would play in key role in the day to day operation of this busy mixed clinical and research unit.

The post holder will provide scientific and technical support to the department, and will be responsible for the safety, calibration, maintenance and development of physiological measurement devices and equipment used in the assessment of retinal and visual pathway function. The post-holder will be one of a team developing and evaluating novel clinical tools and then supporting them in use. Scientific knowledge and experience, and problem solving skills must be applied to a range of diagnostic and therapeutic problems.

Candidates should have experience of electronics, computing, electro-optics, and visual electrophysiology or clinical neurophysiology. The person appointed would eventually be responsible for the day to day running and maintenance of equipment. Persons possessing some but not all the necessary skills and knowledge will receive appropriate training.

Some management and administrative experience is desirable, although not essential.

Suitable persons possessing some but not all of the necessary skills and knowledge will receive appropriate training.

For an informal discussion of the post please telephone Chris Hogg on 020 7566 2120.

Closing date for receipt of completed applications is Sunday 30th April 2017.

Interviews to be held week commencing 22nd May 2017.
